

W-RBGTR5585 – Bosch®

Drywall Pole Sander

CONSTANT SPEED

Provides smooth operation and reliable speed under load

ULTRA-FLEXIBLE HEAD

Reduces the risk of damage to the surface, and it helps enable more effortless movement across surfaces

FLEXIBLE DUST HOSE

Provides virtually dust-free sanding

REMOVABLE BRUSH

With quick-release feature that allows sanding right up to corners

EASY-TO-REACH CONTROLS

Power switch, RPM, and airflow controls can be adjusted all without removing the hand from the grip

T-HANDLE GRIP

Provides a better and more adaptable grip to help reduce arm strain, especially overhead

SPEED SELECTOR

Offers results in different materials and applications

QUICK-RELEASE EXTENSION POLE

Adapts the length of the sander when switching from ceilings to walls; subtracting extension removes excess weight

CEILING SUCTION MODE

Helps reduce the weight of the tool while working overhead, to reduce strain and lessen fatigue
