Dec. 1, 2010

Wind-lock Supplying Complete Drywall Tool Line

Leesport, PA – In response to industry need for a drywall tool supplier capable of quick delivery from multiple locations, Wind-lock is now offering a complete line of drywall tools and accessories.

“We had heard from many of our EIFS and stucco customers who also carry drywall tools how much they would like it if they could get all of their tools and accessories from a single, reliable source,” explained Matthew Thomas, National Product Manager for Drywall Tools at Wind-lock. “With additional market research and due diligence, we decided to make this happen for our customers.”

Wind-lock implemented a soft launch of the new product line in early November to a select group of their customers. Going to market with their ‘What You Need, When You Need It’ promise, they wanted to adequately stock all of their locations before executing a full launch.

The company is carrying tools that support all facets of drywall installation and finishing from the best, well-known and reliable manufacturers in the industry. As part of its launch, Wind-lock is providing new pre-paid freight programs along with special terms to maximize distributors’ cash flow and margins.

-MORE-

For more information on Wind-lock's drywall tools and accessories, contact your local sales representative or call Wind-lock at 800-872-5625.

Serving the construction industry for more than 25 years, Wind-lock has expanded its offering beyond tools and accessories for the EIFS industry. The company has grown to serve other segments of the residential and commercial construction industries including exterior wall systems, drywall, insulation, air sealing, moisture management and weatherization. Delivering "What You Need, When You Need It", Wind-lock ships its products nationally and internationally from five warehouses located across the country.
