*Low Pressure*

*Minimal Expansion*

The superior chemistry of GREAT STUFF™ Pro Window & Door insulating foam sealant enhances the quality and performance of professionally installed windows and doors.

- Polyurethane-based foam offers significant performance advantages over latex products and fiberglass chinking
- Minimal-expanding, pliable formulation permits expansion and contraction while stopping drafts
- Proven not to distort window or door frames
- Dispensing gun applicator assures precise control, maximum yield and reduced waste

***Ensure the best installation: Recommend GREAT STUFF™ Pro Window & Door. For more information, call 1-866-583-BLUE (2583) or visit [www.insulateyourhome.com](http://www.insulateyourhome.com).***
